GÉANT and network R&D

GÉANT and network R&D

- GÉANT2 adopted hybrid networking at least 3 years later than the community.

- The primary requirement put on GÉANT2 is reliable services, not risky innovation.
- Nevertheless, all NREN' s now deliver and need hybrid services.

The Questions

The Questions

- Innovation, R&D; should that happen in, with or independent from GÉANT2?
